Chandigarh

About Me

Dedicated MERN stack developer skilled in building scalable, high-performance web applications and intelligent AI-driven features. Experienced with MongoDB, Express.js, React.js, and Node.js, with strong backend expertise and API integration. Built an AI chatbot using the Gemini API and a responsive BMI calculator with clean, dynamic user interactions.

CGPA -8.23

12th, INTERMEDIATE
R.D.S College (BSEB)
2020- 2022

SKILLS

- JavaScript
- Tailwind CSS
- React.js
- Node.js
- Express.js
- MongoDB
- REST API
- Next.js
- Git & GitHub
- Vercel
- GenAI
- Postman

HOBBIES

- Exploring New Technologies
- Problem-Solving
- PublicSpeaking

LANGUAGE

- English
- Hindi

PROJECTS

BMI Calculator

- Developed a responsive Body Mass Index (BMI) calculator using React (frontend) and Node.js/Express (backend), following clean UI principles and mobile-first design.
- Implemented user inputs for height and weight, performing accurate BMI classification (Underweight, Normal, Overweight, Obese) based on WHO standards.

AdKryoss Digital Marketing Platform

- Developed a full-stack digital marketing platform (AdKryoss) using React.js, Node.js, and MongoDB Atlas, enabling businesses to explore services and submit inquiries through backend-integrated forms.
- Implemented SEO, PPC, and CRO marketing calculators to estimate campaign costs and performance metrics, improving user interaction and providing automated marketing insights.

Hiring Website

- Developed and maintained responsive web pages for the ClinkHR HR solutions platform, improving UI structure and optimizing user experience using modern frontend technologies.
- Implemented dynamic website components and optimized page performance to showcase HR services such as recruitment, payroll management, and workforce solutions, ensuring smooth navigation and responsiveness across devices.
